Dear Clem:

County Hauling Corp and I wish to write you today to express our gratitude for the services you have provided us with regard to our e-commerce enabled website.

As you are aware, we do business with thousands of individual households on a regular and ongoing basis, and the ability to accept online payments that you have provided to us through our website has made this task much more bearable. The e-commerce capabilities of our website allow customers to, essentially, deposit money directly into our bank account without mailing checks or requiring us to deal with high-volumes of mail.

Thank you again.

Sincerely,

Rose Vrabel
